## PROJECTS

**Project Name: Online voting system**

**Role:** Co-ordinator and developer

**Team Size:** 4

**Project Duration:** 7 Day

**Project Detail**

This project deals with the design and development of web based voting system using fingerprint and adhar card inorder to provide a high performance with high security to the voting system. Also we used web technology to make the voting system more practical. The proposed online voting system allows the voters to scan their fingerprint which is then matched with an already saved image withing a database that is retrieved from adhar card database of the government. By using biometric fingerprint it provides enough security which reduces the fault votes
